OSFP (Open Source Foundation Pakistan) is holding Pakistan's first open-source conference in Islamabad, Pakistan on 19th and 20th of September. The conference (summit) website is [http://
/opensource summit.pk/2015/](http://opensource summit.pk/2015/)

. Congratulations Babar Zahoor and his team for the efforts in arranging this conference. The news is a bit late, as I was too busy in managing several things happening around me, and could not update my website in time. If you find time on such short notice and if you can , then please do attend this conference.-Kamran
