Who uses a supercomputer anyway?

This is a presentation about Super Computers, I found on the internet. I found it quite useful for those hungry minds, who are just starting to learn about Super Computing. I got a permission to re-publish this presentation, from the original author, Mr. Jim Greer from Tyndall National Institute, Ireland.

The presentation is provided, on "as is" basis. I have converted it to PDF and ODP formats for your convenience.

[JimGreer - Who uses a Super Computer anyway? \[ODP\] \[4.3 MB\]](#)

[JimGreer - Who uses a Super Computer anyway? \[PPT\] \[4.35 MB\]](#)

Thank you Mr. Jim Greer.

Regards,

Kamran
